

## Technical Writer (Freelance\*)

Apply for the position

[Check out the challenge >>>](#)

### Description of you

- You are a geek, who writes high-quality technical content and knows how to make it readable and clear
- You are fluent in English
- Writing on tech-related topics puts a smile on your face
- Your content pieces make both newcomers and old hands interested in the topic.
- You are motivated to dig into a new topic to deliver outstanding content
- You are a well-organized "getting-things-done" person looking for an outstanding freelance project

If that's the description of you, why waiting so long? Prepare your portfolio, click the link, and let us know that we should do something great together!

*\*This is a freelance position. Standard Railsware benefits do not apply.*

### What you will work on

Collaborating with us you will get a chance to create articles for at least one of our outstanding products – [Mailtrap](#), [Coupler.io](#) and [Smart Checklist for Jira](#). You will create high-quality content that covers different aspects of product marketing, data manipulation, email testing, etc. We expect you to do comprehensive research on the topic and always make sure that the content fits the key success metrics.

## Your skills

- Experience in writing high-quality content and use of data-driven approach to its creation
- Professional English skills (speaking and writing - impeccable grammar and spelling)
- Ability to organize yourself and manage time to work as a freelancer
- Experience in working in/with tech companies
- A strong technical background would be a big plus

## About the company

Railsware is a [product studio](#). Since 2007, we have shaped our own “know-how” in product creation. Among others, we have helped Calendly and BrightBytes turn from small startups into close-to-billion-dollar companies.

Railsware products are the next step in company evolution. We have applied the best product development practices to creating our own solutions. Today, [Mailtrap](#), [Coupler.io](#) and [Smart Checklist for Jira](#) have over 600K users and generate over \$1M of annual recurring revenue.

People feel great here. On average, a Railswarian stays in the company for about 5 years. We support our team with outstanding benefits and remote working culture.

We look for people with high potential ready to evolve in multiple directions. The right hires shape a team of A-players to learn from each other and evolve together.
